Title: NSSB Back Gate

Description of Product or Service Required

Design and construct a replacement personnel portal capable of accommodating peak personnel demand and providing a secure perimeter to the area. Scope to include a new personnel portal structure, sidewalks, pedestal lighting, electrical connections, temporary security fencing, permanent security fencing, and demolition of existing personnel portal/sidewalks.

- Current forecasted bid opportunities are subject to change or cancellation due to scope, mission, or funding requirements.
- Some procurements are reserved for small businesses. Note the competition type on the forecast matrix to determine if a procurement has been set aside or is open to fair and reasonable competition.
- Los Alamos National Laboratory reserves the right to change the competition type from Competitive to Set-Aside prior to the release of the Request for Quotation (RFQ).
- If this is a Request for Expression of Interest and capability information is requested with your response, be advised that Laboratory will not issue your organization a Request for Quotation unless you submit clear and convincing information that your organization has the necessary relevant experience and can fulfill the requirements of the statement of work. If you do not adequately address the required information, and the Laboratory Buyer does not have information indicating otherwise, the presumption will be that your organization is not a viable competitor. In any case, the Laboratory Buyer is the final arbiter on who receives an RFQ.
