Title: Magnet Removal

Description of Product or Service Required

The facility contains two large magnets and a welded steel supporting structure installed in the 1970s that require removal from the building. The two magnets weigh approximately 200 Tons each and are fully enclosed by the supporting steel structure. The work must occur while the facility is not in operation, which is approximately 3 consecutive months per year beginning in February 2017. All work must be completed in two work cycles, by 2018. The facility is a 65 foot dome and is roughly 90 feet wide with a single doorway measuring 15 feet x 12.5 feet. The awarded subcontractor must: 1) Be able to work around existing equipment and with severe space limitations, 2) Possess a state-certified Professional Structural Engineering (P.E.) License 3) Have experience working in radiation controlled areas, AND 4) Have previous experience working for either the Department of Energy or Department of Defense.

- Current forecasted bid opportunities are subject to change or cancellation due to scope, mission, or funding requirements.
- Some procurements are reserved for small businesses. Note the competition type on the forecast matrix to determine if a procurement has been set aside or is open to fair and reasonable competition.
- LANL reserves the right to change the competition type from Competitive to Set-Aside prior to the release of the Request for Quotation (RFQ).
- If this is a Request for Expression of Interest and capability information is requested with your response, be advised that LANL will not issue your organization a Request for Quotation unless you submit clear and convincing information that your organization has the necessary relevant experience and can fulfill the requirements of the statement of work. If you do not adequately address the required information, and the LANL Buyer does not have information indicating otherwise, the presumption will be that your organization is not a viable competitor. In any case, the LANL Buyer is the final arbiter on who receives an RFQ.
