Title: Demolition and Decommission (D&D) Project

## Description of Product or Service Required

SUBCONTRACTOR shall furnish qualified personnel, equipment, materials and facilities to perform all work necessary to abate asbestos and regulated materials; remove and package universal, PVB, lead, and radioactive wastes; demolish, load, transport, and dispose of structures, slabs, footings, and foundations. Site stabilization and restoration shall consist of 4" of heavy-equipment compacted base course.

- Current forecasted bid opportunities are subject to change or cancellation due to scope, mission, or funding requirements.
- Some procurements are reserved for small businesses. Note the competition type on the forecast matrix to determine if a procurement has been set aside or is open to fair and reasonable competition.
- LANL reserves the right to change the competition type from Competitive to Set-Aside prior to the release of the Request for Quotation (RFQ).
- If this is a Request for Expression of Interest and capability information is requested with your response, be advised that LANL will not issue your organization a Request for Quotation unless you submit clear and convincing information that your organization has the necessary relevant experience and can fulfill the requirements of the statement of work. If you do not adequately address the required information, and the LANL Buyer does not have information indicating otherwise, the presumption will be that your organization is not a viable competitor. In any case, the LANL Buyer is the final arbiter on who receives an RFQ.
